## Distance No Longer a Problem

If shipping your artworks is challenging, send us photos. We'll print and frame them for you.

You can also participate the fair with physical artworks, but delivery and pick-up will be your responsibility.

## Alternatives for Shipping

### REMOTE PARTICIPATION:

If shipping your artworks is challenging, send us photos. We'll print and frame them for you.

For those artists who want to participate with the print versions of their artworks, LUNA GRANDE ART will provide the print versions of the artworks according to the ARTIST's preferences and also rules of the fair.

### MUSEUM QUALITY PRINTS:

For our art fairs, we use premium matte finish linen canvases with a weight of 410g/m<sup>2</sup>. This acid-free and pH neutral canvas ensures longevity, and will resist yellowing and degradation over time. When combined with giclée printing, it can produce museum-quality prints that are durable and visually stunning. Giclée printing is a popular method for fine art prints due to its ability to produce vibrant colors and sharp details. It uses fade-resistant, archival inks and can render deep blacks and a wide color spectrum to create the best texture and depth for high-resolution fine art prints.

Our team can also provide additional services like custom framing and ensure that the color pigmentation of your artwork matches the original as closely as possible.

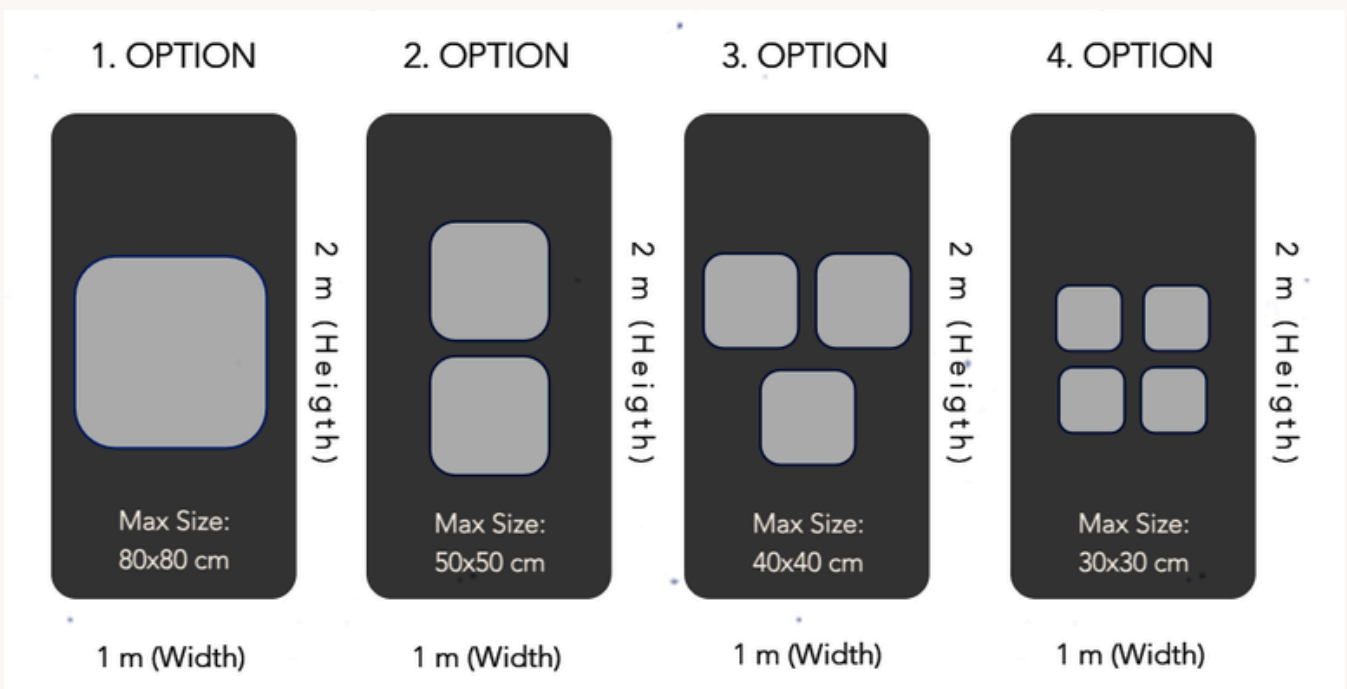

# Artwork Size & Layout Rules

## ARTWORK PLACEMENT:

When it comes to visual impact, it depends on the size of the wall and the artworks themselves. Generally, for a large wall, hanging two to three pieces can create a more dynamic display. However, consider the overall composition and spacing to avoid overcrowding. If your artworks are smaller, one well-placed piece might be equally impactful.

## ARTWORK SIZE AND LAYOUT RULES:

1. Option: (1 M2 Wall Area) // 1 Artwork – Max Size: 80x80 cm
2. Option: (1 M2 Wall Area) // 2 Artworks – Max Size: 50x50 cm
3. Option: (1 M2 Wall Area) // 3 Artworks – Max Size: 40x40 cm
4. Option: (1 M2 Wall Area) // 4 Artworks – Max Size: 30x30 cm

# Photography & Social Media Marketing

## TOP-NOTCH REPRESENTATION:

Our social media team relies on the Nikon Z8 camera to capture stunning, high-quality coverage of the artworks featured in our fair. With its impressive resolution, rapid shooting capabilities, and excellent image and video quality, the Z8 ensures that every piece is showcased beautifully. Whether it's stills or dynamic video, this camera delivers top-notch results, making us ready for any artistic moment.

## Free Pass To Gold Membership:

## Sales & Commissions

During the exhibition or fair periods, Luna Grande Art does not take any commission from the artwork sales. However, outside of the event windows, the gallery takes a 25% commission from all sales. This ratio can be changed depending on the written agreement made with the artist.

The majority of our art displays involve the opportunity to purchase the featured artworks. Enabling the sale of artwork stands as a central function of our gallery. We take on the role of personally representing both the artworks and the artists during the exhibitions and fairs, furnishing comprehensive information to those who express interest. Our process for selling involves direct interaction with the artists and is carried out in a professional manner.

Upon the acceptance of an offer, we facilitate the transaction by providing the buyer with the artist's bank account details. Once the artist confirms receipt of payment, we then share the buyer's shipping address with the artist. In transactions occurring outside of exhibition and fair windows, our gallery assumes the responsibility of handling the money transfer, applying a 25% commission fee for this service. For physical artworks in the artist's possession, we request that the artist arrange for the shipment to the buyer. Conversely, if prints or copies are sold and held by our gallery, we manage the shipping process on behalf of the artist. In both cases, the buyer side will be responsible for the shipping costs. Additionally, should both parties wish to formalize the sale with a contract, we offer our assistance in facilitating communication and negotiations between them, ensuring a smooth and secure transaction for all involved.

Our main focus is on selling reproductions of your artworks, which can be tailored based on your preferences and permissions.

More information about intellectual property rights can be found in our [exhibition contract](#).

# Shipping & Logistics

## PHYSICAL ARTWORKS:

You can send your physical artworks to the fair venue with a private courier or a local logistics company. In this case, you are responsible for the delivery and pick-up costs as well as the successful delivery and pick-up of your items within the deadlines of the events you are planning to join. It will be good to note that items may be held at the customs office for a long time unless required payments and paperwork studies have been completed. Visit [here](#) for more details about shipping.

## RETURN OF ARTWORKS:

After the fair, if your artworks remain unsold, you have 2 options:

- 1) You can extend the visibility of your artworks by reserving a new fair space for the upcoming fairs, and we'll offer a discounted rate as a returning artist.
- 2) If you prefer, you can arrange to personally collect your artworks or request the return of their printed copies by getting in touch with our agents. They will calculate the shipping costs and provide you with assistance.

For the return of your printed artworks, we will apprise you of any additional expenses associated with shipping and custom services. The expenses in this case will depend on your shipping address and cargo details. You can refer to our **Shipping Policy** for further details about the shipment of your artworks.
